At the Biyani Group of Colleges, we have been fostering global educational collaborations for over 20 years, especially with Japan. We offer Indian students valuable academic and cultural experiences, supported by the Japanese government through programs like Sakura Science. By extending these opportunities to high school students, we aim to build early cross-cultural understanding and prepare future global citizens for study and career prospects in Japan.

EVENT HIGHLIGHTS

- **Study in Japan:** Discover top universities, scholarship opportunities, and programs tailored for Indian students.
- **Career Prospects:** Meet recruiters and industry leaders from leading Japanese companies.
- **Networking:** Connect with Japanese university officials, alumni, and professionals.
- **Expert Sessions:** Attend sessions on education, work culture, and career development in Japan.
- **Interactive Q&A:** Gain insight into student life, job markets, and future opportunities in Japan.
